Springer Journal Collection

Top Quality

With over **360** journals, the Springer Biomedical and Life Sciences program serves research and academic communities around the globe, covering the fields of Microbiology, Biotechnology, Genetics and Human Genetics, Neuroscience, Biophysics, Molecular Biology, Biochemistry, Cell Biology, Physiology, Pharmacology, Clinical Microbiology, Immunology, Infectious Disease, Parasitology, Animal Science, and more. Springer journals are recognized as a source for high-quality, specialized content across a broad range of interests.

All journals are peer-reviewed and edited by internationally respected scientists, researchers and academics from world-leading institutions and corporations. Most of the journals are indexed by major abstracting services. The content is searchable by subject, publication title, topic, author or keywords on SpringerLink, the world's most comprehensive online collection of scientific, technological and medical journals, books and reference works.
