CONTENT
SOLUTIONS

Springer's Information Technology and Software Content Solutions deliver a comprehensive set of thousands of eBooks and over 260 eJournals covering topical information from leading researchers across five key subject areas: business & information systems, data and encryption, management, mathematics & statistics, optimization & operations, economics, banking and finance. Springer Content Collections are an ideal resource for corporate clients, providing simple access to a wide-ranging library of relevant information in a single location with Springer's innovative tools and industry leading features.

IT professionals around the globe trust Springer's content to keep up-to-speed with high quality, timely information.

Springer's IT & Software Content Solutions enable professionals developing, deploying or managing IT and software projects to build knowledge, skills and competencies from a deep portfolio of highly regarded eBooks and eJournals.

Key IT and software trends to embrace and leverage in 2012 include:

- ▶ Cloud Computing
- ▶ Security
- ▶ Energy Efficiency
- ▶ Big Data
- ▶ Building Richer Business Applications
- ▶ Software Lifecycle Management
- ▶ Social Media Impacts
- ▶ Staff Retention
- ▶ Building Business Intelligence
- ▶ Richer Graphical User Interfaces

Content Highlights in IT and Software

With emphasis on emerging technologies and innovation from IT leaders, industry experts, researchers and academics, Springer's content collection provides simple access to valuable information.

Professional Computing and Web

Design, .NET, Open Source, Java, System Administration, Windows, Oracle, Technology in Action, and Web Development

Books

- ▶ Apress portfolio

Journals

- ▶ Ethics and Information Technology

Multimedia and Graphics

Computer graphics, computer imaging, computer vision, image processing, media design, multimedia information systems, pattern recognition and graphics

Books

- ▶ The Encyclopedia of Multimedia

Journals

- ▶ The Visual Computer

Networking/Connectivity

Books

- ▶ Lecture Notes in Computer Science (LNCS)
- ▶ Computer Communications and Networks Series
- ▶ IFIP International Federation for Information Processing Series

Journals

- ▶ Distributed Computing
- ▶ Wireless Personal Communications
- ▶ Microsystem Technologies
- ▶ Wireless Networks
- ▶ Mobile Networks and Applications

Security Software

Books

- ▶ Advances in Information Security
- ▶ Lecture Notes in Computer Science (LNCS)

Journals

- ▶ International Journal of Information Security
- ▶ Journal of Intelligent Information Systems

Databases and Data Mining

Books

- ▶ Advances in Database Systems Series
- ▶ Advanced Information and Knowledge Processing Series
- ▶ Data Mining and Knowledge Discovery Handbook

Journals

- ▶ Data Mining and Knowledge Discovery
- ▶ Machine Learning
- ▶ Information Retrieval
- ▶ The VLDB Journal

Fundamentals of operation, architectures, performance management, protocols and future directions of various kinds of networks

Biometrics, cryptology and information theory, data encryption, and data security

Database management, data mining and knowledge discovery

Other related fields of interest:

- ▶ Mathematics
- ▶ Mechanics
- ▶ Nanotechnology
- ▶ Numerical Analysis
- ▶ Optimization

The screenshot shows the Springer for Research & Development website. At the top, there is a search bar and a language selector set to English. Below the search bar, a navigation menu lists various industry sectors. The main content area features a promotional banner for scientific documents, a 'Company Activity' section with recent announcements, and a 'Featured Journals' section.

Choose your industry sector...

- » Automotive
- » Aerospace
- » Biotechnology
- » Chemical Manufacturing
- » Consumer Packaged Goods
- » Electronics
- » Energy Utilities & Environment
- » Engineering
- » Finance Business and Banking
- » Health and Hospitals
- » IT and Software
- » Law
- » Materials and Steel
- » Oil, Gas and Geosciences
- » Pharma
- » Telecommunications

- Chapter: Deploying Component-Based Applications: Tools and Techniques, Software Engineering Research, Management and Applications, 2008

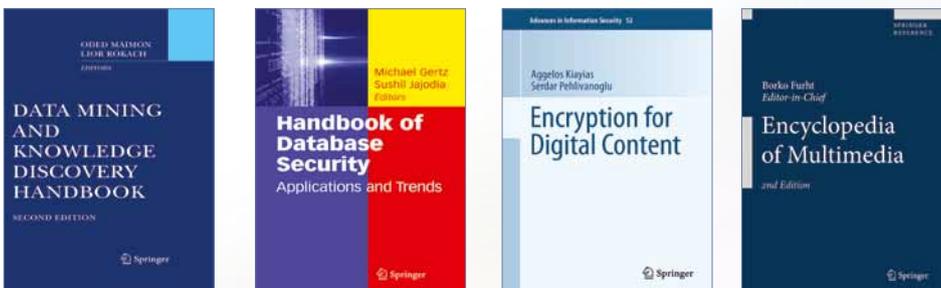

Featured Journals

Springer for R&D, the leading edge in research, is instantly available and easily accessible from virtually any location on any device.

Featured Journals

Featured Books

► *"We love the openness in the business model. Springer is setting a great standard and they are a very good role model. They really understand the needs and wishes of the client."*

► **Global software manufacturer**

► *"I tip my hat to Springer that they had the foresight to make such a flexible licensing and downloading model, that a large company like ours can easily work with it. We love Springer for that!"*

► **Global software manufacturer**

Associations

As a publisher of respected journals with contributions from some of the world's best academics and authors, Springer has become the preferred publishing partner of some of the most renowned scholarly and professional societies in the world.

Springer authors have been recognized by The Association for Computing Machinery (ACM) and The Institute of Electrical and Electronics Engineers (IEEE) for their contributions to the advancement of engineering science and technology. Particular recognition has come from those closely associated with the Springer Series Lecture Notes in Computer Science (LNCS), which has established itself as a medium for the publication of new developments in computer science and information technology research and teaching.

Our business is publishing

Throughout the world Springer provides scientific and professional communities with superior specialist information including the highly regarded titles from Apress and the series Lecture Notes in Computer Science (LNCS).

Apress is a technical publisher devoted to meeting the needs of IT professionals, software developers, and programmers, with more than 1,000 books in print and electronic formats. Apress provides high-quality, no-fluff content that helps serious technology professionals build a comprehensive pathway to career success.

The series Lecture Notes in Computer Science (LNCS), including its subseries Lecture Notes in Artificial Intelligence (LNAI) and Lecture Notes in Bioinformatics (LNBI), has established itself as a medium for the publication of new developments in computer science and information technology research and teaching - quickly, informally, and at a high level.

Availability and Pricing

Springer Content Solutions deliver quality information products and services to all types and sizes of organizations from single sites to global businesses with multiple users across locations.

With access to over 2,000 journals and more than 7,000 new book titles every year in the Science, Technology, Medicine and B2B sector, Springer's accurate, easy-to-use content fits the market needs of all types and sizes of organizations.

Whatever your business needs, Springer promises total flexibility in its bespoke licensing models from low entry deposit options to licensing single content collections or the entire database.

Ask a Springer representative about the right purpose-fit solution for your organization today.
