Associations

As a publisher of respected journals with contributions from some of the world’s best academics and authors, Springer has become the preferred publishing partner of some of the most renowned scholarly and professional societies in the world. Springer authors have been recognized by The Association for Computing Machinery (ACM) and The Institute of Electrical and Electronics Engineers (IEEE) for their contributions to the advancement of engineering science and technology. Particular recognition has come from those closely associated with the Springer Series Lecture Notes in Computer Science (LNCS), which has established itself as a medium for the publication of new developments in computer science and information technology research and teaching.

Our business is publishing

Throughout the world Springer provides scientific and professional communities with superior specialist information including the highly regarded titles from Apress and the series Lecture Notes in Computer Science (LNCS).

Apress is a technical publisher devoted to meeting the needs of IT professionals, software developers, and programmers, with more than 1,000 books in print and electronic formats. Apress provides high-quality, no-fluff content that helps serious technology professionals build a comprehensive pathway to career success.

The series Lecture Notes in Computer Science (LNCS), including its subseries Lecture Notes in Artificial Intelligence (LNAI) and Lecture Notes in Bioinformatics (LNBI), has established itself as a medium for the publication of new developments in computer science and information technology research and teaching - quickly, informally, and at a high level.

Availability and Pricing

Springer Content Solutions deliver quality information products and services to all types and sizes of organizations from single sites to global businesses with multiple users across locations.

With access to over 2,000 journals and more than 7,000 new book titles every year in the Science, Technology, Medicine and B2B sector, Springer’s accurate, easy-to-use content fits the market needs of all types and sizes of organizations.

Whatever your business needs, Springer promises total flexibility in its bespoke licensing models from low entry deposit options to licensing single content collections or the entire database.

Ask a Springer representative about the right purpose-fit solution for your organization today.
