*2014 Journal Citation Reports ®
(Thomson Reuters, 2015)
Nature Reviews’ clinical content is written by internationally renowned clinical academics and researchers and targeted towards readers in the medical sciences, from postgraduate level upwards. In-depth Reviews present authoritative, up-to-date information on a topic, placing it in the context of a field’s history and development. Topical discussion and opinions are offered in Perspectives and News & Views articles, and in the Research Highlights section the editors filter primary research from a range of specialty and general medical journals.
