Earth and Environmental Sciences
Springer Journal Collection

Springer’s online collection of more than 145 earth and environmental sciences journals covers a range of publications in topics spanning the uncharted depths of the oceans to the outer reaches of our atmosphere; works that include research on the physical makeup of the earth, its history as a fragile environment, the analysis of pollutants and their effects on food, the atmosphere and life. Springer has made available works on environmental policy – identifying how human behavior can be modified in the future to help minimize problems such as groundwater contamination and the depletion of the ozone layer. Earth Sciences subjects take in the fields of geology and geophysics and are concerned with the composition, structure and physical aspects of the earth. The content is searchable by subject, publication title, topic, author or keywords on SpringerLink, the world’s most comprehensive online collection of scientific, technological and medical journals, books and reference works.

Highlights from the collection

All journals are available on link.springer.com
- Enhanced browsing features
- Semantic Linking delivers more related content
- Improved search functionality – including searching by citation
- Easy filters for Online First and Open Access articles
- And much more

Society Partners include:
- Coastal and Estuarine Research Federation
- International Association for Landscape Ecology
- International Association of Hydrogeologists
- International Association for Engineering Geology & the Environment
- Saudi Society for Geosciences

Available Anytime. Any Place.

Springer journals in Earth & Environmental Science feature ground-breaking articles on emerging topics, including:
- Aquatic Sciences
- Energy Resources and Conservation
- Environmental Chemistry
- Environmental Economics
- Environmental Engineering and Physics
- Environmental Health & Public Health
- Environmental Law – Policy – Eco-Justice
- Environmental Management
- Environmental Toxicology
- Global Change – Climate Change
- Monitoring & Environmental Analysis
- Nature Conservation & Biodiversity
- Sustainable Development

Prominent contributors are leaders in their fields and include:
- Koen Martens, Editor Hydrobiologia
- Jim LaMoreaux, Editor Environmental Earth Sciences
- John Smol, Nature Award
- Charles Finkl, Series Editor Encyclopedia of Earth Science Series

Why Springer Journal Collection Packages?
- Available 24/7, on and off-campus
- Includes electronic supplementary materials such as tables, graphs and videos
- Articles are searchable by subject area, publication title, topic, author citation or keywords
- Comprehensive support. Once subscribed, you will receive the resources you need to make the most of your investment
- More than 60,000 librarians worldwide choose SpringerLink for online scientific content
