Custom Reports for Your Business

Rely on our in house, qualified experts and analysts to consolidate key information, communicate valuable insights, and to provide you with the data and analysis you need for your global investments and business decisions.

Pharmaceutical Business Intelligence Reports

Save time and money with the Adis Custom Intelligence Report service. Our industry experts prepare tailored reports which allow you to view and track global drug pipelines in order to help you best position yourself in a changing market. Detailed report examples include: the implications of the current and potential future landscape of a drug, the assessment of success and failures for compounds and mechanisms used in drug development for speed to market, etc.

Custom Industry Research Reports

In the fast paced global market place, save time and get ahead of the competition by allowing Springer’s in house team of experts and analysts to deliver the custom research report you need most. Springer works with you to tailor the scope, focus, and length of the report, then performs extensive literature research, screening, and precise analysis on the area(s) that interest you most. Sample reports include: analysis of an industry landscape to identify new investments, detailed topic reports, comprehensive report of your competitors and their developments, reports on new innovations within a particular industry for business developments, etc.

Workflow & Report Process

We work closely with you and your organization to determine the genuine scope of a project and to define objectives. Springer experts then deliver a unique solution by using the latest research, reliable references, and access to evidence and best practices. Springer creates a bespoke research based report tailored to your needs and demands by using the following workflow, which allows you to monitor and change the report as needed.

Key Benefits of Springer Custom Reports

- **Comprehensive** – Content sourced from Springer, Adis, and leading industry resources
- **Custom** – The report content is handpicked for your focus area
- **Dynamic** – Our team of experts are available to tailor reports for your needs
- **Expert** – In house qualified and experienced PhD scientist and analysts prepare reports
- **Extensive** – Reports include literature research and comprehensive analysis
- **Flexible** – Available on a one-time basis or several reports for your ongoing needs
Your Window to Worldwide Drug Development, Clinical Trials, Drug Safety Monitoring, and Innovation

**AdisInsight** is a comprehensive suite of drug development databases aimed to help you find, identify, and advise on business and investment opportunities in the pharma marketplace.

**R&D Insight**
Adis R&D Insight is a drug pipeline database that tracks and evaluates drugs worldwide through the entire development process, from discovery, through pre-clinical and clinical studies, to launch, and beyond.

- A global monitoring tool that provides you with access to the world’s latest scientific, market, and drug safety information available.
- Let our expert in house teams analyze scientific data, provide expert commentary, and perspective that delivers valuable strategic insight for your business.
- Quick, intuitive access allows you to easily compare multiple records, and visualization tools that allow you to graphically depict your analysis.
- Commercial and financial forecasting data from our data partner, Credit Suisse, provide insights into the probability of approval, patent expiry, generic entry, and worldwide revenue forecasts for launched products and drugs in active development, providing a value assessment of the future market potential for treatments in specific indications.

**Clinical Trials Insight**
Clinical Trial Insight allows you to monitor the progress of global clinical trials as they are planned, recruited and conducted, and provides rapid digest summaries of best-evidence study results.

**Pharmacovigilence Insight**
Pharmacovigilence Insight delivers you fast and easy access to the adverse drug reaction case reports, drug safety studies, and regulatory news impacting your market.
