

Springer Book Archives (SBA)

FAQ for Researchers

1. What is the Springer Book Archives?	The Springer Book Archives (SBA) is the initiative responsible for digitizing Springer books that are not yet available as eBooks, dating back to the 1840s.
2. What is published through the SBA?	The SBA is digitizing and distributing as many Springer books as possible (around 100,000), from both the STM and professional publishing houses. All SBA eBooks will be hosted together on SpringerLink, along with journals, protocols, and more.
3. Does this mean all Springer books will be online now?	No, a project of this scope is impossible to complete down to every last title. Our goal is to be as complete as <i>possible</i> , with up to 100,000 <u>additional</u> books expected online by the project's completion.
4. What are some of the benefits of all of this additional content?	SBA titles, many of which were previously out of print, will more than double the world's largest STM eBooks collection, on SpringerLink, with around 100,000 titles when the project is complete in 2013. This unprecedented collection of historical eBooks provides: <ul style="list-style-type: none">• anywhere, anytime access to previously hard-to-find quality content• a vastly expanded MyCopy selection• an historical context for research• much greater visibility for authors
5. Will I have access to the Springer Book Archives?	Check with your librarian!
6. Are SBA books available as print-on-demand?	Yes, most English language SBA titles will be available via Springer's unique MyCopy print-on-demand softcover, for patrons of libraries who have purchased the book archives. Please see www.springer.com/MyCopy for more information on availability.
7. Is Pay-Per-View available on SBA	Yes. Book chapters will be available on SpringerLink for the same price as our other eBook chapters, \$29.95 and €24.95.

titles?	
8. Are there any authors of note in the SBA?	Yes! Renowned scientists have published with Springer such as Werner Siemens, Rudolf Diesel, Werner Siemens, Karl Scheel, Rudolph Virchow, Marie Curie and many others.
9. I am a Springer author! Will my book or chapter be part of the SBA?	We hope so! Please visit the dedicated SBA author page at www.springer.com/SBAauthor for more information.
10. Does the SBA cover all subjects?	The SBA covers all 12 eBook subject collections: <ul style="list-style-type: none"> • Behavioral Science • Biomedical and Life Sciences • Business & Economics • Chemistry & Material Science • Computer • Earth & Environmental Science • Engineering • Humanities, Social Sciences & Law • Mathematics & Statistics • Medicine • Physics & Astronomy • Professional and Applied Computing
11. Where is a list of SBA titles available?	A list of all potential SBA titles is posted on www.springer.com/bookarchives .
12. Does the SBA cover all languages?	Yes, but the final book title list will include books primarily in English and German (approximately 50% each).
13. Is the content linked to CrossRef, PubMed, MATH, ChemPort, MathSciNet?	SBA books will provide the same set of robust linking found in all Springer PDF eBooks. They are being assigned CrossRef DOIs, at the title and chapter levels, just like all of our other eBooks.

<p>14. How are SBA books being digitized?</p>	<p>SBA titles are being scanned using the latest digitizing technologies, with superior quality scanning:</p> <ul style="list-style-type: none"> • Black mode @ 600 dpi • Half-tones in gray or color @ 300 dpi • Then illustrations are mounted into the text files • OCR allows for full-text searching • Enriched and extracted metadata for better discoverability
<p>15. Are SBA titles also available in print?</p>	<p>Yes, SBA titles, many of which were previously out-of-print, are available in softcover print and via MyCopy (as applicable).</p>
<p>16. Does Springer have e-rights for all of these books?</p>	<p>Rights need to be verified or obtained for each book and it is a process to which Springer is devoting great care and attention. We strongly encourage authors and rights holders who have not already been contacted by Springer to get in touch with us so their books may be included in this exciting project. More information can be found on the dedicated SBA author page, www.springer.com/SBAauthor or by contacting bookarchives@springer.com</p>
<p>17. How will authors be remunerated for their work?</p>	<p>SBA authors and rights holders can elect to either receive or waive royalties. For those who waive royalties, Springer will significantly increase its level of support to charitable organizations such as INASP and Research4Life that help provide the developing world with access to scientific research based on author participation.</p>
<p>18. Did authors sign an agreement with Springer?</p>	<p>Titles in the SBA fall into a number of rights categories. For most recently published titles, Springer already has the electronic rights due to contractual provisions. Additionally, in some countries, such as Germany, copyright allows for electronic rights in instances when the author transferred all rights to the publisher. Many of the very early titles in the collection are now in the public domain. However, there are indeed titles for which the rights situation is not yet clear. We are both checking contracts and contacting authors or their legal heirs. While we work to resolve these rights issues, we are also spreading the word about the project and asking authors to contact us regarding rights. We are working very hard to obtain those rights that we do not already have. If you are or know of a Springer book author or rights holder, we encourage you to help us spread the word about this project so that we may include as many books as possible. Please visit the dedicated SBA author page, www.springer.com/SBAauthor or contact bookarchives@springer.com for more information</p>

19. What are the differences between the SBA and other eBooks?	SBA books have the same SpringerLink 'look and feel' as our other PDF eBooks.
20. What is the retail value of all the SBA titles?	The actual retail cost of so many titles spanning so many years is really impossible to determine.
21. When will the SBA project be completed?	Digitization began in November 2010 and all available books will be online by year-end 2013, with about half of English-language titles available by year-end 2012.
