Islamic Economies

Stability, Markets and Endowments

This book explores contemporary empirical issues in Islamic economics. It begins by outlining current trends in Islamic economics and before identifying gaps in the empirical research. It then goes on to discuss the role of institutions in economic growth for Islamic countries, and the fiscal aspects of Islamic economics. [...]

The European Roots of the Eurozone Crisis

Errors of the Past and Needs for the Future

This book examines the Eurozone crisis in light of theoretical and empirical evidence. The first half explores specific theoretical contributions within a framework of growth theory models to examine the two major pillars of the European construction, the European Central Bank and the Maastricht Treaty, and seeks to explain why they are theoretically wrong. [...]

Gender and Time Use in a Global Context
The Economics of Employment and Unpaid Labor

This edited volume uses a feminist approach to explore the economic implications of the complex interrelationship between gender and time use. Household composition, sexuality, migration patterns, income levels, and race/ethnicity are all considered as important factors that interact with gender and time use patterns. [...]
The Singularity of Western Innovation

This book highlights the contribution of language standardization to the economic rise of the West between 1600 and 1860. Previous studies have been unable to explain why during this period almost all industrial innovation was confined to small areas around the main cultural centers of three Western states – Britain, France, and the United States. [...]

The Economy of South Asia
From 1950 to the Present
This book explores the historical roots of rapid economic growth in South Asia, with reference to politics, markets, resources, and the world economy. Roy posits that, after an initial slow period of growth between 1950 and the 1980s, the region has been growing rapidly and fast catching up with the world on average levels of living. Why did this turnaround happen? Does it matter? […]

A Second Chance for Europe
Economic, Political and Legal Perspectives of the European Union
This book calls upon us to rethink and reboot the European Union. The authors dissect the EU’s many vulnerabilities: how some Member States are backsliding on the rule of law, freedom of the press, and control of corruption – and how globalization’s ‘discontents’ are threatening the liberal international order. Financing Basic Income
Addressing the Cost Objection
This Palgrave Pivot argues that basic income at a decent level is, in fact, affordable. The contributors approach the topic from the perspectives of three different countries—Canada, Switzerland, and Australia—to overcome objections that a universal program to keep all citizens above the poverty line would be too expensive to implement. **Systemic Risk**
A Practitioner’s Guide to Measurement, Management and Analysis

Systemic Risk provides readers with a wide-ranging practical guide to systemic risk in the financial system. It challenges the notion that systemic risk is exclusively about interconnectivities within the financial system, showing that past systemic risk crises have often involved a broader range of vulnerabilities. [...]
The Palgrave Handbook of Unconventional Risk Transfer

This handbook examines the latest techniques and strategies that are used to unlock the risk transfer capacity of global financial and capital markets. Taking the financial crisis and global recession into account, it frames and contextualises non-traditional risk transfer tools created over the last 20 years. [...]

Finance, Society and Sustainability
How to Make the Financial System Work for the Economy, People and Planet

This book is a critical analysis of the impact of the financial system on the economy, society and the natural environment. It cuts through the noise to looks at its purpose, its activities, and what it does in practice. Unlike other books that cover the last financial crisis and the risk of another one; this book is about the consequence of the financial system continuing in its current form. [...] 2017.
